

Do you have narcolepsy or hypersomnia?

We are looking for patients for a new study

With this study we hope to learn more about the causes and brain effects of idiopathic hypersomnia and narcolepsy

2 overnights

Daytime naps

Brain scans

Cognitive tasks

Inclusion criteria:

- Have a diagnosis with idiopathic hypersomnia and/or narcolepsy
- Age between 18-64
- Have no other sleep disorders
- Have no major psychiatric or neurological disorders
- Not pregnant or breastfeeding
- Willing to discontinue some medications (e.g., 48h for stimulants)
- Eligible for an MRI scan (no pacemaker or metallic prosthesis)

Compensation will be offered for participation
